

I am writing in regards to the Low Power FM (LPFM) broadcast service that could impact non-profit radio stations such as K-LOVE and even force them off the air. K-LOVE is not only a family based radio station, which unfortunately is so rare these days, it also provides a critical service to our community. It offers outreach programs, ministry & positive upbeat music, it also keeps us abreast with local and national Christian related news. I believe if K-LOVE were forced off the air due to this new broadcast service that it would have a negative impact on our community. Hundreds of thousands of people listen and depend on this radio station. I personally feel as a ciitzen that if this were to happen that it's actually like forcing a church to close. Obviously, radio stations that are non-profit such as K-LOVE are solely dependent on the public to support them financially and based on their success speaks volumes that the public wants this radio station to continue to air. Thank you.
